

ADOS-2 Clinical Workshops (CME/CEU available)

January 28th to 30th, 2019

- **Introductory Clinical Workshop**
- **Toddler Module Clinical Workshop**

University of California
San Francisco

Trainer:

Somer Bishop, Ph.D.
Associate Professor
Department of Psychiatry
UCSF STAR Center

Phone: (415) 502-4140

Email: STARtraining@ucsf.edu

Location: 401 Parnassus Ave
San Francisco, CA 94143

Overview

The ADOS-2 is an observational assessment used to aid in the assessment and diagnosis of autism spectrum disorders across ages, developmental levels, and language skills. The second edition includes revised algorithms, a new comparison score for Modules 1-3, updated protocols with clearer administration and coding guidelines, and a new toddler module. This training is appropriate for clinical psychologists, psychiatrists, pediatricians, speech-language pathologists, school psychologists, social workers, behavior analysts, and other clinicians/researchers working in ASD assessment.

ADOS-2 Introductory Clinical Workshop (Modules 1-4)

Dates and Times: Mon. Jan 28th & Tue. Jan 29th, 2019, 8am to 5pm

Prerequisites:

- You will need to bring your own ADOS-2 manual to the workshop
- Pre-course practice videos and articles will be provided to attendees a few weeks prior to the workshop dates

Cost for Attendance: \$500 (+ optional \$100 CME/CEU fee)

The ADOS-2 introductory/clinical training workshop will use a lecture format and live demonstrations to introduce the basic principles of administering and scoring ADOS-2 modules **1 through 4** and provide an essential step toward competence in using the ADOS-2 as a part clinical assessment and/or for research purposes. Learners will complete the course with a fundamental understanding of modules 1-4, in addition to experience observing and scoring two assessments with the support of a certified trainer.

ADOS-2 Toddler Module Clinical Workshop

Dates and Times: Wed. Jan 30th, 2019, 8am to 5pm

Prerequisites:

- Complete ADOS-2 Introductory Clinical Workshop

Cost for Attendance: \$250 (+ optional \$50 CME/CEU fee)

The ADOS-2 toddler module may be used on children between the ages of 12 and 30 months of age. This workshop will use a lecture format and video demonstrations to introduce the basic principles of administering and scoring the ADOS-2 toddler module and provide an essential step toward competence in using the ADOS-2 as a part clinical assessment and/or for research purposes. Learners will complete the course with a fundamental understanding of the toddler module, in addition to experience observing and scoring an assessment with the support of a certified trainer.
